BOOK SYNOPSIS

Some of the serial killers chosen for this first annual Serial Killers True Crime Anthology you might have heard of and we present their tales in new ways. Others have not graced every newspaper, tabloid or television screen and represent tales of true crime horror told in detail for the first time in these pages. Five of true crimes most prolific authors have come together in these pages to present their most compelling cases of serial homicide, famous and not so famous. WARNING: This book contains graphic forensic crime scene photos and statements that some may find disturbing. "The lambs may have stopped screaming, but Hannibal Lecter has nothing on the very real monsters presented here." Serial killers; they cross the bounds of evil. They murder at random without logic or reason other than the one twisting in their sick and evil minds. They are diabolical vile creatures devoid of morality or pity. You will meet a chosen few of them in these pages. We will see that serial killers are roaming among us all, from small towns to big cities. They are not limited to a particular place, gene pool, culture, social class or religion. They are not restricted to any particular demographic, political propensity and they can be of any gender. "To cover such vast territory of the criminal mind is a credit to the dedication a small group of determined authors who possess a passion in true crime and it is evident in the pages of Serial Killers True Crime Anthology 2014, a book you will embrace and come back to repeatedly, I will. I am excitedly anticipating volume two next year." - □□□□ John Douglas, FBI Profiler bestseller author of Mind Hunter
